AMENDMENT

Sir:

In response to the Official Action dated March 1, 2002, please amend the
above-identified application, as follows:

IN THE CLAIMS

Please amend the following claims:

1. A hydraulically actuated quick coupling device, comprising:
- an attachment frame including a centerline;
 - a latch member operatively associated with the attachment frame and movable between a disengaged position and an engaged position;
 - a link having first and second end portions, the first end portion of the link being connected to the latch member;
